

# THE FIRST PRE-ANNOUNCEMENT OF THE MICHAELMAS CONFERENCE OF THE FIRST CLASS OF THE FREE HIGH SCHOOL FOR SPIRITUAL SCIENCE AT THE ESOTERIC YOUTH CIRCLE (CIRCLE OF 12)

10.08.2023

---

May human beings hear it!

Dear friends, an Initiative group of the Organizing Committee of Christmas Meeting appeals to all anthroposophists and people of good will who feel their involvement in service to Michael and Christ!

In connection with the Archangelic cycle of the Christmas Meeting, a “window of opportunity” has opened for all cultured humanity. It consists of the fact that now, after a long time, a call is coming back from spiritual world, which already sounded three times to mankind: in 1875, when the Theosophical Society was founded, in 1911, when the "Society for the Theosophical Method and Art" was to be founded, and in 1923, when the "Voice from the Spiritual Land" sounded during the Christmas Meeting. Maria Steiner testified that Rudolf Steiner said, “such a call occurs, as a rule, three times. If it remains unheard a third time, then for a long time it retracts into the spiritual world” (GA 264, p. 424). The essence of the call is always an appeal to humanity to do something, this call sounded three times with the opportunity for humanity to take over the creation of the world and become the tenth hierarchy of freedom and love.

The question is, will anthroposophists now be able to hear the returning call from the spiritual world and accept it with dignity for the benefit of all mankind?

In order to answer this question, which, for sure, many people have asked themselves, it is necessary to understand whether there are chances today, after a hundred years, to

resurrect the Anthroposophical Society of the Christmas Gathering and to realize in it all those impulses that came along with the triple call from the spiritual world.

As soon as this question shines in the mind, then it will be heard how it sounds today, how it brightly pierces the heart with its sound, and calls to the future.

There are chances! So, one can state clearly and categorically, so long as there is someone to take them and implement them. Even more can be said. If these chances are not taken, then the whole of humanity will be immersed in the Third World War, the manifestations of which can now be observed in the Slavic lands.

The passive experience by humanity of the impact of the two horsemen of the apocalypse - pandemic and war - will inevitably lead to the next two, which are approaching at great speed - hunger and technological singularity. If those who are called for it do not take over the creation of a new world from the hands of Spiritual forces, then from the Spiritual world with great power, bowls of wrath will be poured out and foolish humanity will be swallowed up, bringing everything to a full reboot.

If we are awakened by the impending black scenario, then we can ask with a clear mind: how can we return the lost century? What new opportunities are opening up for us, despite all of ups and downs of the lost 20th century?

These new opportunities came with new impulses that went unnoticed in the 20th century, and some were even intercepted by dark forces, as we know: "a holy place is never empty."

The new impulses that were given from the spiritual world and that Rudolf Steiner alerted us to correspond to three centenary cycles:

1. The arrival of Vulcan beings of a dual nature - associated with the centenary cycle of the battle of Michael in 1979.
2. The arrival of the second impulse of anthroposophy - methodosophy, which is associated with the centenary of the end of Kali Yuga in 1999.
3. The third impulse is that of the Christmas Gathering, whose centenary falls on 2023. This is an opportunity to update and to re-lay the Foundation Stone, thanks to the acceptance of the first two impulses, and with this force to renew the New Mysteries in the 21st century, especially in relation to the Anthroposophical Society itself.

And now we can describe in more detail what the essence of these three impulses is and how they can be realized in our time.

On the arrival of Vulcan beings, Rudolf Steiner in his lectures "Prospects for the development of mankind" (GA 204) writes: "Since the end of the 80s of the 19th century, superterrestrial (überirdische) beings have been wanting to enter earthly existence. Just as the Vulcan people were the last to descend to Earth, so now the Vulcan beings are really entering into earthly existence. We already have superterrestrial beings in earthly existence. And to this circumstance, to the fact that superterrestrial beings bring

messages into this earthly existence, to this circumstance we are indebted that we can generally have a connected spiritual science.”

And he also warned what would happen if these Vulcan beings were not accepted by people in the right way: «Yes, the beings that I spoke about will gradually fill the Earth - Vulcan beings, Vulcan superpeople, Venus superpeople, Mercury superpeople, Sun superpeople and so on, they will connect with earthly existence. But if people continue to oppose them, earthly existence will plunge into chaos in the course of the next millennia. Earthly people, after all, will be able to develop their intellect further automatically; it can also be developed in barbarians; but the whole of humanity will not be involved in this intellect, and people will not have any connection with those beings who aspire to earthly existence.”

Today we can observe the dual nature of Vulcan beings:

the first is the technologies of thinking and activity, the second are computer programs.

Both of these streams came during the 20th century, but especially at the end of the 20th century on the centenary of the battle of Archangel Michael, and since they were not consciously accepted Artificial Intelligence (AI) began to take over from humanity.

The technologies of thinking came through the stream of methodology back in the 50s of the 20th century. They could have served for the benefit of humanity, if after the departure of the carrier of the impulse into the spiritual world, they would not have been sold to transnational companies and political parties. AI appeared in 1979 in the form of the first personal computer as an assistant to mankind, and this would have been so if the first kind of Vulcan beings, which corresponded to the development of living human thinking, had not been captured. Then thanks to that it would have been possible to accept Vulcan beings of the second kind and then they would have served man, and not led humanity on a deadly line - to technological singularity.

This can be designated as the first factor of that new saving impulse, which should enter with special force into the centenary cycle of the Christmas Meeting, namely: the conscious acceptance of Vulcan beings of a dual nature, human intelligence and AI.

The Emergence of the Second Impulse of Anthroposophy began with the advent of the time of light since 1899, when it became possible to fully interact with the spiritual world, who wanted to be expressed through the creation in 1911 of the "Society for the Theosophical Method and Art", which was to come under the direct leadership of Christian Rosencreutz, the leading Master of our era.

Anthroposophy had to come to its culmination by the end of the 20th century, and this was possible only under the condition of a meeting of Platonists and Aristotelians. This did not happen, as we see now, on the physical-sensory plane, since the second impulse of Anthroposophy was not accepted, which was that methodologists would accept anthroposophy, and anthroposophists would accept methodology, and the souls of people would be fertilized by these new spiritual beings. Then people would be able to experience each other's uniqueness and difference and reach out for cooperation, or in

other words, build a creative communication that would lead to cooperation of both people and spiritual forces, which would bring Anthroposophy to its culmination.

Again, it is not too late to do this now, given all the experience of mistakes, and transubstantiate them into a great good.

The new impulse of anthroposophy can be identified as a joint act of gods and people, which we would experience in methodosophy.

The third impulse - the impulse of the Christmas Gathering is streaming in with bright light to meet us, if only we have time to fully perceive it. In order to accept it, we will need all the power of previous impulses, since we will face the task of returning the statutes of the Christmas Meeting to the Anthroposophical Society, which is possible provided that we understand the reasons that led to the fiery death of the first Goetheanum, as well as to the premature crossing of the Threshold of the spiritual world by Rudolf Steiner.

The status of the Christmas Gathering presupposes the complete restoration of connection with the Anthroposophical movement and the formation of the Anthroposophical Society as an esoteric society - a society of the spirit itself, which can become the necessary body for the incarnation of the living being of Anthropos-Sophia. Which, in turn, will make it possible to perceive the New Mysteries and the renewed substance of the Foundation Stone.

All this is also impossible without the new impulses of Vidar, who, since the transition of Archangel Michael to the rank of Archai, has taken his place. Being a silent Áss (god) - he gained a special ability to hear. Thanks to this, he, as the vanguard of Archangel Michael, leads those elemental spirits who heard the call during the Christmas meeting about the Turn of Times. This means that the reverse flow of time to the spiritual world has begun, which on the physical plane corresponds to the beginning of dematerialization.

Thus, it can be said that Archangel Vidar became the ruler of the new time, which means that after the Turn of Times, which was announced at the Christmas meeting, the substance of time acquired its plasticity and now the "past" is not so frozen and reinforced as concrete, and the "future" - can now depend more on the human.

Also, Archangel Vidar, who experienced a shift in the spiritual world from being an Angel before, now has the opportunity to introduce vulcanic beings into the army of Michael and, in addition to managing time, also build a three-membered social organism, through the appearance of its special supernova 4th member, which is the virtual space. Which reveals the main secret of the entire earthly evolution, which Rudolf Steiner expressed as follows: "Turn the trinity into the four" (GA 121).

Having on hand such spiritual methods and technologies of the second impulse of anthroposophy, Anthroposophists from all over the world can unite for the resurrection of the Anthroposophical Society of the Christmas Gathering, which can be held at the Christmas Conference in 2023. The renewed substance of the Foundation Stone can be used to create a community of free individuals, which, according to its vocation, will

organize the Anthroposophical Society and all anthroposophical initiatives, and from its own free will bring Anthroposophy to its climax in the next 30 years.

P.S Yes, and now about the most important thing! What can prevent us from accomplishing this great mystery - the Resurrection of the Anthroposophical Society of the Christmas Meeting?

The answer immediately comes to everyone's mind - of course, the Jesuits and Masons, who prevented all this from being realized a hundred years ago. I'm afraid to disappoint you, dear friends, but this is a misconception of today's "inveterate enemy" of Anthroposophy.

This "enemy" is already retreating, because it understands that it will be buried under the tombstone along with all of humanity, but the real ENEMY is so close to us that we do not notice it - this is our desire to live in comfort, to be in Luciferic ecstasy, reading anthroposophy at leisure, increasing one's ego, enjoying pointless discussions and gossip on Ahriman's field, creating the illusion of anthroposophy's advancement into the world.

If each of us, even for a minute, can stand before Rudolf Steiner and experience his gaze as the gaze of the world's conscience, then everything false, double, Jesuit in us will immediately fall away and the light of youth and enthusiasm will shine in our souls and the desire to carry Anthroposophy into the world with all our being will emerge! May the light of the Foundation Stone enter our hearts and shine again as the dodecahedral stone of love, which will melt all karmic outbursts and give us clarity, courage and strength in realizing the Highest goals of the Gods!

With great hope

Initiative group of the Organizing committee of the Christmas Meeting
